VAN-CAMP 'CREAM OF **VEGETABLES.**"

HADE of Thechetsy!"— that's a Soup would make "Old Titmersh" long to be on earth again for some "glorious gormandizing."

Its rich, piquant, pungent, creamy tasts comes smacking to ease his long after, at mere memory of its bewitching haunting arouna.

No mere flavored bot water is this—with a spoonful of Beef Extract, or left-over Meet Steck added, to bribe the palate but fool the stomach out of the nutrition due it.

And, no insipid Purce, either; with its flat and fasteless starchy filling.

This is a stalwart Soup, with plenty of backbone to it—a real Food—not a bluff. The backbone, and nutrition, is supplied by the rich, heavy, full-disvored Van Camp Cream that is its seed and essence and foundation.

Add to this the Eggs, the Butter, and the delicious blending of Pepper-come, Cloves, Parsley, Colery, Thyme, Carrot and Onion and you have a soup that ravishes the palate; rouses the appetite; sets the Digestive Juices flowing and heaves a pleasant memory behind it.

Yet it is an easy soup to make, in emergencies, from supplies that should be found in every larder. And it's so cheep that you can serve enough of it for air people at a cost of 12 cents, or 2 cents a plate. No meat in it as you'll see by the recipe below.

Ven Camp Cream costs only about half the price of fresh Cream from the Milkman, and it cents to you sterlised, in sealed time, so that it heeps for years till you want to use it.

But, don't confuse it with that caricature called "Condensed Milk" which is half sugne, half only milk, tastes like "Pap" and looks like Axle Grease.

Van Camp Cream is just rich Cream and Milk with two-thirds of the Water drawn out of it, two hours after coming from the cow. It is then sterilized by Heat and Cold, till not a living Germ is left in it, to Sour the milk, or to carry Disease.

Nothing added to it. Nothing taken out but the Water, and the dangerous Germ life. No Sugar, Cornstarch, Formaldehyde, nor other drugs added to preserve it.

Van Camp Cream is twice as thick as ordinary fresh cream, fuller flavored, and more sutritions.

Because, it has not only all the Butter-fat but all the other muscle-making parts of Whole

These are needed to make it digestible, and to supply the full Creamy Almend flavor.

No expensive fresh cream, can compare with Van Camp Sterilized Cream, for Collee, Tea,
Cooking, Soupa, Gravies, Pastry, etc.

For Oyster Stews it is incomparable, and for the 40 dishes described in the ciever Cook
Book called "Van Camp Delicious Cream Dishes," which will be sent free, on request, from
Van Camp Packing Co., Indianapolis, Ind.

Van Camp Cream is sold by Grocers in Time, about pint size, at 10 cents each.

It should be bought by the case, however, vir:—48 tims for \$4.50, or about 9 cents each.

A case will keep for years in your pantry and it is always ready for instant use in any way.

A case will keep for years in your pentry and it is always ready for instant use in any way that fresh Milk or Cream can be used.

What it adds to your Grocer's bill, it more than saves on your Milkman's bill, and it also

Because, Van Camp Cream supplies three times as much nutriment, per dollar of cost, as does Beef—and it makes waste scraps of meet into cheap, but very enticing dishes.

Get a case of Van Camp Cream today, from Grocer. Send it back if you don't like it, and pay him 10 cents a can for what you used.

Warm Fight Raging Between Rival Typesetting Machine Companies Over Government Printing Contract.

Wyatt Building, 14th and F Streets Washington, July 7 .- Secreey in condu ing its inquiry into Government Print ing-Office scandals has already made the ommission, appointed by the President to conduct a general investigation of the various departments at Washington, the subject of severe criticisms.

The printshop scandal grows out of the course of officials of the printing office in circuit Judge Reynolds has denied the application of the St. Louis Transfer Company for a writ of mandamus compelling use. Charges of graft are based on this lacense Collector P. J. Clifford to issue contract, it being said that the Innstor vehicle licenses under the old ordinance. | machine dees not compare with it's olde The case, which involves the validity of rival, the Mergenthaler. Interests identithe new ordinance, requiring certain ve- fied with the Lauston Company and the hicles to have tires of a width regulated officials of the Printing Office in defense by the diameters of the axles of the ve- of their purchase of the Lanston article hicles, will be passed upon by the Su- maintain that this machine is the superior

Attorney Randolph Laughlin, who represents the Transfer Company, said yesterday that the action in the Circuit Court was a preliminary proceeding to get the matter before the Supreme Court, where the big fight will be made.

The case, he said, must be passed upon by the Supreme Court before the end of they are vigorously fighting their battle ed the attention of the commission an the inquiry at the Printing Office is its mission, At the outset, Mr. Keep indicated that the investigation was to be a public

Hearings were begun and it became very apparent that on interesting record was to be secured, which would contain expert testimony as to the relative merits or dehunters who live inside of Livingston merits of the Lanston and Mergenthales den. Chairman Keep deckied to make the inquiry a star-chamber proceeding and such it has been in the last three days. Apparently reliable information to-day is to the effect that a deal is on whereby the Mergenthaler interests will buy the centrel of the Lanston Company. Such a step would be construed as having been forced by the investigation and calculated to obviate the danger that publicity be given to the inquiry into the capacities of the machines. The question being asked is whether or not a Government Commission, in looking into the merits

asked is whether or not a Government Commission, in looking into the merits of two competing manufactured articles, should not do it in the open and furnish the facts to the public.

In the leat of the active warfare that is now going on between these two commissions is leaven the commission, it is said that each side is going so far as reassible toward showing every wenk; of the opposing machine and the continuous the decision publicly until the believed, saying rather more they would ever think of saving continuous every would ever think of saving arguments of advicates of one or the other machines for the purpose of making sales are made verbally and by demonstrations which leave no permanent record. But now the case is very different. Every denunciation, every statement showing the veakness of either machine is being taken down by trained stenographers. It is becoming a part of a record, but is not going to the public.

That record may be destroyed or edited so as to lose many of its vital parts. The stitutes of secrety that the commission has shown in decilings with this investigation is leading many people to believe that

INIDENTIFIED MAN ASSAULTS OCCUPANTS OF A WAGON.

It is leading many people to believe that the testimony new being taken may be emissionally new being taken may be estimony.

A special reason why the entire testimony may be destroyed is now urged. It is said that should a deal for the purchase of the Lainton stock by the Mergenthaler go through or he practically agreed upon before the tublication of this testimony. It will be vastly to the interest of both companies that the entire matter should be suppressed and in that way the savere criticisms that have been made on the effectiveness of both machines will be forever smothered and the consolidated company can go ahead with its business without the disadvantage of having to explain damaging statements that may have been made before the commission by themselves. een made before the commission by them-
